„In the context of the programme „helping people help themselves“ we give people the chance to ensure income!“

By the support of our donors we could make big things happen. We are active in the forgotten regions of the world, where people are struggling to survive. By implementing innovative sustainable solutions we give those people the chance to live a dignified life.

Our years of experience have taught us that over the long-term it will not lead to success, when we always provide help. Development aid should not take the form of hand-outs, but rather be a way of helping others help themselves. The aim is to give people in need the chance to live independent, self-determined, autonomous lives.

And so the idea emerged of initiating the project „ income support“. We travelled to the various regions of the world and analysed the geographical and economic conditions of each area of need.

There is an old saying: Give a man a fish, you feed him for a day; teach a man to fish, you feed him for life. By giving people the chance to free themselves from poverty and unworthy living conditions, we make the world a better place and create long-term solutions.

Finally our idea transformed into reality. The families in need received the following resources to ensure income: **Rikshaw taxis, sewing machines, foundations for animal husbandry.** The implementations of these ideas are since many years successfully in place and the families in need accepted these strategies with a warm welcome.

Support us by giving people the chance to live an independent and self-determined life!

By donating you will be changing someone's life!

Rikshaw taxi

Car-Rikshaws in Bangladesh help people ensuring income and fighting against poverty.

355€

Sewing machine

In order to help women to become independent and make them achieve an adequate level of taxable income we provide sewing machines. They learn to sew simple items that they can then sell. WEFA hopes naturally that its recent new generation of women will stand surely soon on the own legs.

155€

Cattle farm systems

Our cattle farm systems ensure that farmers receive an appropriate level of income and have the possibility to consume meat.
